**Texas Klansman
Resigns, Assails
'Blackballing'**

HOUSTON, April 1 (UPI) — Texas Fiery Knights Imperial Wizard Scott Monroe Nelson resigned Wednesday, warning other Klansmen to go underground or be blackballed by their neighbors and the business community.

Nelson, who formed the Fiery Knights as a splinter group of the Ku Klux Klan four years ago, said he has been constantly harrassed because of his outspoken views on black rights and communism.

"I've been blackballed myself and my family has and I've decided to resign due to the lack of loyalty and brotherhood and unification among the members in different Klans," Nelson said. "I would suggest that other Klansmen stay underground and not reveal themselves as Klansmen because it would not do any good."
